

AV to HDMI Converter MINI HD VIDEO CONVERTER

AV to HDMI conversion technology
Full HD 1080p
Intelligent identification AV signal
3D Compensation Technology

AV to HDMI conversion technology

converts CVBS to HDMI with scaler based on 10-year technical experience on conversion technology, making the picture more vivid.

Full HD 1080p; bring you into a new frontier

Mini converts standard AV signal to HDMI video conversion technology with scaler up to 1080p.

Intelligent AV to HDMI converter

mini can automatically detect AV signal in PAL/NTSC and scales it to 720p/1080p, Plug and play, no drivers or software required, making you enjoy the convenience and the visual impact.

3D Compensation Technology

Although it's mini version, unique 3D Compensation Technology is also applied. With this technology, It can optimize the whole process and result, including the signal input, signal collection, signal processing and signal output. Video on watching will become much more vivid and no jitter and trailing even for fast moving video meanwhile, restore the three primary Red, Green, and Blue perfectly.
